For County Auditor,

RUDOLPH LEMICKE.

For County Commissioners,

3d Dist.—ARIAL ELDREDGE.

4th Dist.—L. A. HUNTOON.

5th Dist.—BERKMAN WINANT.

THE NEWS.

The news of this morning fully confirms the report of Sunday's telegrams that Sherman had forced Hood out of Atlanta, and whipped him, and that our forces now occupy the rebel stronghold. Sherman got between Hood and his army, and whipped them so badly that the redoubtable Hood, who could not entertain an idea of retreating, was fain to escape from Atlanta in the night. We have not room for particulars.

Important Notice in Regard to Enlistments.

It is stated authoritatively that about three-fourths of the quota of Minnesota is already filled by voluntary enlistments. By a notice published elsewhere it will be seen that the time for recruiting and paying bounties by the Government is extended up to the very day the draft takes place. There is no indication or probability that the draft will be postponed, but the Government is anxious that, as far as possible, should be filled by volunteering, and so rapid have been enlistments since the call, that it is confidently expected that all, or nearly all, the quotas will be filled before the draft actually commences.

Perhaps a week or ten days will be consumed in preparing the necessary accounts for the draft, and during that time towns which are deficient should make strenuous efforts to enlist their full complement of men.

Description of Atlanta.

Atlanta is situated in DeKalb county, Georgia, about seven miles south-east of the Chattahoochee river and on the line of railroads leading from Savannah to Chattanooga and Nashville, Tennessee. Four of the principal railroads in the State terminate at this place. They are the Georgia road to Augusta; the Macon and Western road to Macon; the Atlanta and Western road to Chattanooga; and the La Grange road to West Point. The surrounding country contains gold, iron and other valuable and useful minerals. Since the rebellion foundries and machine shops have been established here, and immense quantities of ordnance material turned out for the use of the rebels. It is considered one of the most important towns in the South, from railroad connections, and in consequence of its mines and manufacturing factories. Foreign writers, as well as some of our own, have considered its possession of even more importance to the rebels than Richmond. Time will develop what use will be made of its possession by the Union forces. It will doubtless be made a grand depot for supplies of Sherman's army, and the base of important operations.

HON. WM. WINANT has been unanimously nominated for member of Congress in the First District.

VICTORY!

ATLANTA IS OURS!

Let the Eagle Scream!

HOOD'S ARMY DEFEATED!

"Fling Out the Glorious Stripes and Stars!"

Sherman's Army Occupies Atlanta!

Let the Loyal People Everywhere Rejoice!

COPPERHEADS AND REBELS ARE DESPONDENT AND DESPAIRING!

Grant Says He Only Wants 100,000 more Men,

TO TAKE RICHMOND,

And Smash the Rebellion!

WAR DEPARTMENT, Sept. 2d.

To Major General Dix:

The following telegram just received from General Slocum, dated at Atlanta to-day, confirms the reported capture of that city: "General Sherman has taken Atlanta. The 20th Corps occupies the city. The main army is on the main road, near East Point. A battle was fought near East Point, in which General Sherman was successful. Particulars not known."

(Signed) H. SLOCUM, Maj. Gen.

An unofficial report states that a battle was fought near East Point by Gen. Sherman with Gen. Hood. The rebel army was cut in two with a very heavy loss to the enemy. Our loss is not known.

[Signed] E. M. STANTON.

Secretary of War.

New York, Sept. 3d.

Herald's Washington special of the 2d says:

The capture of Atlanta assures pos-

session of the whole State of Georgia,

and renders the condition of the rebel leaders more desperate than ever be-

fore.

It was by one of those masterly stra-

tegic movements, for which Gen. Sher-

man has been noted, that he has been en-

abled to achieve so brilliant a result now.

It is well known that Hood has added ma-

terially to his strength by the conscrip-

tion of numerous boys and old men, who

behind works, could render very good

service. Outside of works this very

strength would prove a great weakness and terrible loss of power and property.

The purpose of Sherman in the movement which began on the night of the 26th, was to deprive the Rebel Commander of his strength and the protection of his works at Atlanta. In other words Sherman hoped by flanking Atlanta, and cutting off his supplies to force Hood out to fight, and thus with his largely preponderating force of veteran troops to whip him in an open field.

With this view Sherman moved on the night in question, with two day's rations, and all his army except the 20th corps (Slocum's) which had been withdrawn from the front of Atlanta to Chattoochie Bridge, there to remain as a corps of observation, and to occupy Atlanta in event of Hood abandoning it. He was also employed to look after communications, and hurry forward, by railroad, supplies to whatever new position Sherman might assume.

The army is reported to have moved in the following order: 25th corps [Schofield's], in advance, followed by the 14th [Davis's], 17th [Logan's], 10th [Ransom's], 17th [Blair's], 4th [Stanley's], in the order named, all making flank movements, with strong skirmish lines on either flank, and front and rear.

East Point was left to the east, and at dawn Hood found Sherman gone.

Grant only wants 100,000 more men to take Richmond, and close the War.

100,000 new troops promptly furnished all that Grant asks for the capture of Richmond and to give a finishing blow to the rebels yet in the field.

The residue of the call would be sufficient for garrisons or forts, and to guard all the lines of the communication, and free the country from guerrillas, give security to trade, commerce and travel, and establish peace and tranquillity in every State.

[Signed] E. M. STANTON,

Secretary of War.

Sally's Battle with the Indians.

From the *Dakota Union*, Aug. 25.

We learn through rumor, that Sally has had a battle with the Indians, and killed one hundred of them. Rumor did not state where or when the fight occurred. Sally lost five men killed and twenty wounded—so says rumor.

LATER.—The steamboat Belle Peoria has just arrived at our levee. Four gentlemen connected with the boat, we learned, were shot to death by the Indians. Sally has had a battle with a large force of Indians—over 3000—and whipped them badly. The battle occurred in the Gros Ventre country, above Big Knife river; doubtless in the vicinity of Fort Berthold. The Indians were routed, and Sally chased them nine miles, to a chain of rugged and heavy timbered hills, known as the "Devil's Den." Whether the Indians were followed into this retreat, we did not learn; but we can well think that Sally would abandon the pursuit while a chance remained for finding a rest and a shelter where he was five killed and twenty wounded. Should the result of this battle prove no more decisive than this account would indicate, we may expect another year of border war. The Indians will not risk another general battle at the present season.

The programme for the evening was read as follows:

1. Calling of the roll, and responses by sentiment.

2. Lecture by Prof. Weld of River Falls Wis.

Mr. Stickney was authorized to procure the services of a boy to publish the notice of this evening's meeting. Adjourned till 7 1/2 p.m.

TUESDAY, evening 7 1/2.—Institute met in the Myrtle Street Church and was opened with singing and prayer.

Roll was called and most of the members responded.

A very interesting and instructive lecture was delivered by Prof. Weld.

Subject—"The necessity of Education."

The exercises were closed with singing by the choir.

WEDNESDAY—9 A.M.—Institute met at the appointed time and was opened with roll call, those present responding by reciting a verse of Sacred Scripture.

A large number were tardy. Prayer was offered by J. L. Howell.

The subject of Eloquence was then introduced by Rev. E. W. Merrill, who occupied 2 1/2 of an hour in entertaining and profiting remarks and illustrations.

It was voted by the members of the Institute to request the provision of text books for practice in reading.

Practical arithmetic, the subject next in order on the programme was introduced by Porter E. Walker, and the remainder of the time allotted to it was spent in discussion and class exercises.

Contributions from the query box were then read, after which the Institute adjourned till 2 p.m.

WEDNESDAY 2 P.M.—Institute met according to adjournment and after singing by the choir, the first subject on the programme for the afternoon viz:

The principles of grammar, was taken up and fully explained by Prof. Weld interspersed with class exercises.

Mathematical Geography the next subject was brought under consideration under the direction of Rev. J. C. Caldwell. Much interest was elicited and information communicated upon this subject.

Recess of 5 minutes was taken.

After recess the Institute was called to order by the chairman, and listened to a pleasing quartette. The remainder of the afternoon until the hour of adjournment was spent in answering some of the questions from the query box.

Proceedings of the Washington County Teacher's Institute.

The Institute met at The High School Building in the city of Stillwater and was called to order at 11 o'clock A.M., and a temporary organization effected by electing Hon. Wm. Holcombe chairman and A. B. Stickney Secretary.

A committee of three ladies and three gentlemen were on motion appointed to report officers for the permanent organization.

The chair appointed as such committee Messrs. Caldwell Stickney, Lyon and Misses Smith, Lyon and Seely. On motion adjourned to 2 o'clock P.M.

TUESDAY, 2 P.M.—The Institute met according to adjournment.

The committee appointed last year to draft a constitution for the Institute reported one which on motion was adopted.

The committee on permanent organization made the following report which was adopted.

REPORT OF COMMITTEE ON PERMANENT ORGANIZATION.

President—Hon. William Holcombe.

Vice-Presidents—Samuel W. Furber,

Rev. E. W. Merrill,

Secretary—Rev. J. L. Howell,

Assistant to Miss Isabella B. Riggs,

Dr. J. K. Reimer,

Joseph Haskell, Atwood Garrison, St. Paul, Minn., Martin J. O'Callaghan, Stillwater,

E. A. Stuckney do.

The time fixed for the sessions of the Institute was from 9 A.M. till 12: from 2 P.M. till 5: the evening sessions to commence at 7 1/2 o'clock.

100,000 new troops promptly furnished all that Grant asks for the capture of Richmond and to give a finishing blow to the rebels yet in the field.

The residue of the call would be sufficient for garrisons or forts, and to guard all the lines of the communication, and free the country from guerrillas, give security to trade, commerce and travel, and establish peace and tranquillity in every State.

LEIBEG'S ESSENTIAL COFFEE

The most Healthy.

The most Economical.

The most Delicious.

PREPARATION OF COFFEE

I N T H E W O R L D ,

OLD OR NEW

This Coffee is prepared under a formula
from the great German Chemist,

PROFESSOR LEIBEG,

and gives the old full strength and
delicate flavor of the OLD GOVERNMENT JAVA
COFFEE, which is the only one equal to it
in taste, preparation and art of the
new coffee, which so sadly damages the
nervous system in the use of even the best
grades of coffee ordinarily prepared.

It gives the coffee a new life, and
permits of a more delicate and
easier digesting, and yet always found
in the ordinary Dandelion Coffee.

It is known to all acquainted with
coffee, that the coffee of the old
countries, which is the best, is
not the best, and that the best
coffee is the best.

It gives the coffee a new life, and
permits of a more delicate and
easier digesting, and yet always found
in the ordinary Dandelion Coffee.

It gives the coffee a new life, and
permits of a more delicate and
easier digesting, and yet always found
in the ordinary Dandelion Coffee.

WEAVING PRICES.

Weaving PRICES.

French Breakfast and Dinner
COFFEE.

Owing to the very high price of Coffee,
and the great difficulty in procuring a good
and reliable article, our customers have
been obliged to wait until their supply
is exhausted, and then to go to another
place for a new supply.

WHOLESALE DEALERS will find it to their
advantage to purchase from us, as we have
a well posted house, and can supply
them well posted before purchasing elsewhere.

REMEMBER THE PLACE,

SEND FOR A CIRCULAR.

THE GREAT AMERICAN TEA COMPANY.

At their establishment intended to do a
good business but as they had some customers
who wished to be supplied from first hand
with Coffee, as well as Tea, and as their Tea
Taster was possessed of a good knowledge
of Tea, he has furnished it to our customers
and at the same time, the tea is
as good as any tea in the market.

THE GREAT AMERICAN TEA COMPANY
has a large roasting room, and a
large quantity of tea is
now being prepared for
our customers.

It is Fast Selling all Other
Coffees.

This Coffee has been used for more than a
century, and is now in use by some of the
best houses in the country, and is now in use by
the leading French Restaurants here. The Pa-
risians are said to be the best judges of Coffee,
and the greatest connoisseurs, and we are
sure that our coffee will be equally well
received by them.

It is well known that our coffee is
well packed and well preserved.

STILLWATER MESSENGER

A. B. STICKNEY, EDITOR

STILLWATER:

Tuesday, -- September 13 1864

UNION PRESIDENTIAL TICKET,
1864.

FOR PRESIDENT:
ABRAHAM LINCOLN,

OF ILLINOIS.

FOR VICE PRESIDENT:
ANDREW JOHNSON,
OF TENNESSEE.

CONGRESSIONAL NOMINATION.

FOR Representative in Congress,
IGNATIUS DONNELLY.

FOR JUDGES OF THE SUPREME COURT,

Chief Justice,

THOMAS WILSON.

Associate Justices,

S. J. R. Mc MILLAN.

JOHN M. BERRY.

For Presidential Electors,

CHARLES H. LINDSEY,

JOHN G. BETTS,

J. N. MURDOCK,

J. W. MORFITT.

For Judge of District Court,
CHARLES MC CLURE.

LEGISLATIVE TICKET.

For Senator,
JOHN MC KUSICK.

For Representatives,
L. J. STARK.

ANSELL SMITH,

L. A. HUNTOON.

For Judge of Probate,
H. R. MURDOCK.

For County Auditor,
RUDOLPH LEHMICK.

For County Commissioners,
3d Dist.—ARIAL ELDRIDGE.

4th Dist.—L. A. HUNTOON.

5th Dist.—BERKMAN WINANT.

"The slave question is a mere excuse. The election of Lincoln is a mere pretext. The present accession movement is the result of an enormous conspiracy, formed more than a year since—formed by leaders in the Southern Confederacy more than twelve months ago. The conspiracy is known; arms have been raised to level to accomplish it. There are only two sides to the question. Every man must be for the United States or against it. There can be no neutrals in this war; only PATRIOTS and TRAITORS." Extract from the last speech of Steven A. Douglas.

THE NEWS.

The bold and reckless raider, John Morgan, has, at last, come to grief. He was surprised by our forces in East Tennessee, his band of robbers and horse dealers defeated, himself killed, and his staff captured. This news was received on Wednesday last, and is since confirmed through rebel sources.

Gen. Sherman, in his report sums up the result of his successes as follows: 27 guns, over 3,000 prisoners, and says he has buried over 4,000 rebels and left as many wounded that could not be removed. The rebels have lost, besides the important city of Atlanta, with its stores, at least 500 dead, 2,500 wounded, and 3,000 prisoners; whereas our aggregate loss will not foot up 1,500.

The "popular reaction" against the present administration works well. Vermont has spoken. In the language of the Press, "the Green Mountain echo back the thunders of Atlanta, and underscore the reply of the Army of the Cumberland to the Chicago Convention—that this nation shall not be surrendered to traitors." The majority for the Union Candidate for Governor is 22,000, showing a Union gain of 6,000 since last year; the entire Senate is Republican, and the House, containing 339 members, has only five Democrats among the number. How do the Copperheads like the "popular reaction?"

Military Matters.

Gov. Miller has received a dispatch from Washington, authorizing him to raise a regiment of Heavy Artillery in the place of four companies of Infantry. The regiment, if filled to the maximum, will contain about 150 men, and it is thought, from the great number of applicants who have presented themselves at the recruiting offices, expressing the wish to enter new organizations, that the number can be easily raised. The Pioneer says that the command of the regiment will be given to Lieut.-Col. Averill.

—The report of the death of John Morgan is confirmed by the Richmond papers.

—Did the capture of Atlanta remind the Copperheads of "another little joke?"

I have noticed that merit is always measured in the world only by its success.

Gen. Grant's view of the Situation.

WASHINGTON, Sept. 8.—The following is an extract from a telegram from Gen. Grant's headquarters, City Point, Va., 6th instant: To Hon. E. B. Washburne:

DEAR SIR: I state to all citizens and whomsoever it may concern, that all we want now to ensure an early restoration of the Union is a determination of the North and unity of Northern sentiment. The rebels have now in their ranks their last men; the boys and old men are guarding bridges and Railroads and form a good part of their garrisons for entrenched positions. Any man lost by them cannot be replaced. They have robbed the cradle and the grave equally to get their present force.

Besides what they lose in frequent skirmishes and battles, they now lose by desertion and other causes at least one regiment per day. With this drain upon them the end is not far distant if we will only be true to ourselves.

Their only hope now is a divided North. This might give them reinforcements from Tennessee, Kentucky, Maryland and Missouri, while it would weaken us. With the draft enforced the enemy would become despondent, and would make but little resistance. I have no doubt but that the rebels are anxious to hold out until after the Presidential election. They hope for a counter revolution. They hope the selection of the peace candidate, in fact, like McClellan, they hope for "something to turn up." Our peace friends, if they expect peace from separation they are much mistaken. It would be but the beginning of war with thousands of Northern men joining the South because of our disgrace in allowing separation. To have peace on any terms, the South would demand a restoration of their slaves already freed; they would demand indemnity for losses sustained, and they would demand a treaty which would make the North slave hunters for the South.

Yours truly, U. S. GRANT.

From Washington.

Herald's Washington special says: The President, in a recent conversation with a Republican, said that an armistice once arranged for and granted from a government to rebels has never resulted otherwise than in a final acknowledgment of their independence, as the independence of Texas was eventually acknowledged by Mexico. So an armistice granted to the rebels would be an indirect agreement to, at some future time, acknowledge their independence.

In regard to the draft, he stated that in the first nine days after the call was made the average number of recruits received throughout the country was about 200 per day. In the ensuing nine days the number increased to 500. The whole number during 50 days is 50,000, and the number is steadily increasing. We must not fail to do what we can to encourage this. We shall probably let the draft drag along, encroaching it in a few localities where they do not show sufficient energy in recruiting, but doing all we can to encourage those localities that recruit with energy.

The Journal of Commerce points out a singular error in the President's last proclamation for troops, in ordering that the draft should take place "immediately after the 5th of September, 1864, being fifty days after the date" of his call. The official copy of the law under which the call was made requires that sixty days shall be given for filling quotas under the call, and accordingly the draft should have been ordered for the sixteenth instead of the sixth of September. This error may account for the present delay in commencing the draft. The copy of the law published by most of the newspapers of the country contained the same error copied by the President in his proclamation.

—A few nights ago there was a rain-storm in the vicinity of Petersburg, washing away many of the tents of the 18th corps. According the the Tribune, one correspondent, fourteen soldiers, who were asleep, are known to have been drowned. The water in the valley was ten feet deep and more, and raised like ocean-surf. One man, noted as a wit, was drowned when nearly drowned. At last, having a groan, he opened his eyes and gasped out, a word at a time. "I am—Captain Semmes—where—is—the Greyhound?"

Gen. Grant is the inventor of a new mode of firing a salute. On Saturday last, on the receipt of the news of the capture of Atlanta by Gen. Sherman, he ordered a "salute to be fired with shotted guns from every battery bearing upon the enemy." This is "killing two birds with one stone." We hope hereafter when salutes are to be fired in the army, that this example of Gen. Grant will be closely followed.

—The report of the death of John Morgan is confirmed by the Richmond papers.

—Did the capture of Atlanta remind the Copperheads of "another little joke?"

I have noticed that merit is always measured in the world only by its success.

The Eleventh Regiment ordered to be sent to Nashville immediately.

The Press of the 9th says:—Col. Avrill received orders yesterday from the War Department, to send the Eleventh Regiment to Nashville immediately, to be there subject to the order of Gen. Sherman.

Inquiry was made the day previous by the Adjutant-General of the War Department whether the regiment could not be forwarded in three days. This demonstrates how vigorous reinforcements are being sent forward—troops raised East going to Grant, and those from the West to Sherman.

The Eleventh Regiment is now in camp at Fort Snelling. It numbers about 1,000 men, a majority of whom are old soldiers, and the whole battalion will soon be in fine drill and discipline. We predict it will, under the fine officers, General Gilliland, who has been appointed its Colonel, win as fair a record as any of our ten regiments which have preceded it to the field.

Petroleum V. Nasby on a Democratic Success in 1864.

The real intent of the Chicago Copperhead platform is given by Petroleum V. Nasby, in the divine best style as follows:

This puts a new face upon affairs. We needn't be particularly anxious on our moor for Lee's success—in fact I believe it would be better for us to have Grant whip Lee and talk Richmond. For why? Because about the time the Confederacy is played out, we shall be a democrat, and spoze that democrat lets up on em, restores their niggers, pardons em, pays their debts, compensates them ez her sustained losses in the war, and penshuns their widowers, woodent they let us have the offish a while. Up coars: they wood.

DULL.—The Goddess of Dullness reigned supreme in the city yesterday. After a calm comes a storm, and the inversion of the proverb is an equal irony. Nothing was doing. Reporters chased items all over the city, but they obstinately refused to be caught, and buttry like only tantalized the poor hunter till he was wearied and vexed, and disgusted. The budget of the reporter was full but the drafts of the reporter were honored. The Common Council sat but little over half an hour, a fact unprecedented in the municipal history of Chicago. The Meantime the Association did not meet at all. The draft it self, which had been looked forward to with such feverish anxiety, did not come off, and the very blow on the lake subsided without a single case of wreck so far as ascertained, though it was rumored last evening that a vessel was on the bar. Several crowds gathered on streets during the day, but on examining nothing more important was discernable than a terrier dog, hunting a rat under the sidewalk. Mischief would certainly have been in Elysium yesterday on our streets. Nothing more important than woes turned up, and quite stile was the universal rule.—Trumbull.

—The Dayton Journal states that Fernando Wood, in a fine frenzy, during his speech, made recently in that city, said that if by offering up his life could stop the bloodshed that is now afflicting the country, he would cheerfully do so. An appreciative Irishman in the crowd earnestly responded—"It wad be damed shame."

An appreciative Irishman in the crowd earnestly responded—"It wad be damed shame."

—A thick-skinned schoolboy had the sentence, "Hope on, hope ever!" written for him to copy by his teacher. Imagine the surprise of the latter, when upon examining the youngster's chirographical evolution he found it rendered thus: "Hope on, hop over."

The rebels will grant Peace if we will concede their Independence. This we cannot do. Democra says offer them Peace on the basis of the Union and a Nationalized Slavery. This we cannot do, either. Peace can be had if the Rebels will only return to the Union. Who, then, will grant Peace if we will not concede their Independence?

—The "Ante-bellum glasses" is the name of an extraordinary piece of mechanism lately exhibited in London, and said to have been invented by a Turk:

It represents the head and the upper parts of the body of a human being, fitting in his mouth, so that it is thought which issues the sound of a human voice. This is an antediluvian manner that it is impossible to believe it produced by mechanism alone. The words of the songs are heard quite distinctly; the quality of the voice, a tenor, though somewhat nasal, is exceedingly agreeable, and the invention altogether unique.

Local and Miscellaneous News.

A. B. EASTON, Editor.

Notice to the Public.

Owing to the large increase and constant increasing expense of publishing our paper, we are obliged to add a small heavier charge for the insertion in the columns of Fox Magazine of all calls for political or public, literary and scientific, and other similar notices, which have been heretofore published free of cost. The charges for such announcements will be as follows: Marriage Notices, 50 cents each; Obituary Notices, \$1; simple anniversaries, 25 cents each; notices of meetings, etc., one-half our established rate for ordinary advertising, according to the space occupied. We have hitherto given publicity to notices of the kind above, to whom no charge is made, but notice to our readers requires that we do not do so.

Persons bringing or sending such notices to the office for publication, should bear in mind that they will not be inserted unless the payment for each insertion accom-

plices the copy.

REV. MR. HILLS SCHOOL.—This school which was closed on account of the extreme heat was reopened yesterday Sept. 5th.

Terms per quarter of eleven weeks as follows: One pupil from a family \$8. Two or more from the same family \$8 each.

CAPTURED BY GUERRILLAS.—A letter was received at the Post-office in this city on Saturday last, mailed at Vicksburg, bearing the ominous superscription, "To the friends of M. and R. CORSMAN." L. R. CORSMAN, Esq., of this city—father of MANROE and RAYMOND, the two persons referred to in the direction—took the letter from the office, and we can imagine what terrible forebodings must have thrilled the heart of the parent as, with trembling hands, he broke the seal. The letter stated that the boys had been captured by bushwhackers recently, and carried off to parts unknown. The writer further stated that they had been heard from since their capture, and that they were, up to that time, uninjured, and had been well treated.

The eldest of the boys, MANROE, has been a prisoner once before in the hands of the rebels. He entered the service at the opening of the war, in an Illinois regiment, and was taken prisoner in the memorable charge of the rebels during the siege of Fort Donelson. After languishing in Southern prisons for nine long weary months, he was at length exchanged, and after a brief visit to his father's family in this place, he again enlisted. But former hardships and exposures, as well as the sufferings incident to a life in a Southern prison, had so undermined and shattered a naturally delicate constitution, that he was compelled to accept of his discharge. He acted as Sutler for an Illinois Battery for a short time, and on abandoning that position, he entered into a partnership with a plantation owner near Vicksburg, and about a year ago, sent for his brother, RAYMOND, who was a clerk in the store of Mr. W. E. THORNE of this city.

It has been the well-known practice, and avowed determination of the guerrillas to murder in cold blood every person whom they caught upon a deserted or confiscated plantation. But in this case the circumstances are widely different—the boys having been engaged in carrying on a plantation in company with the original owner—so that strong hopes are entertained that they will shortly be released. Mr. CORSMAN left yesterday, enroute for Vicksburg, for the purpose of looking after the business affairs of his sons, and ascertaining if anything can be effected toward their release.

The distressed family have the deep and heartfelt sympathy of our citizens in their severe affliction.

DEATH OF CAPTAIN DANIEL L. USWELL.

We received, a few days since, a copy of the *Free Press*, published at Lebanon, N. H., containing the account of the death of DANIEL BUSWELL, who was a resident of Afton in this county at the breaking out of the rebellion. He enlisted as a private in Company B, First regiment, and was in the first Bull Run battle, Ball's Bluff, and many other engagements. He was with the regiment in the *Peninsula* campaign, where he contracted a disease, which came near terminating his existence. He was, however, at this critical juncture discovered by his townsmen and friends from his native place, Lebanon, N. H., who kindly nursed him and cared for him until his recovery.

He returned to Lebanon at the time when the Ninth N. H. regiment was being organized, and by the aid of friends a captain's commission was procured for him in the regiment. He was with the regiment through all its varied fortunes—in many a well-fought field—but it was so reduced by battle and disease, that he became the ranking officer in the regiment. On the 22d of July last, while on picket duty near Petersboro, he was shot by a rebel sharpshooter, the ball striking him in the right shoulder, completely shattering the bone, and lodging near the left lung. He was taken to Washington, where he lingered amid the most terrible suffering until the 8th of August, and then quietly and peacefully yielded up his life. We believe he has a brother living in Afton.

"**STOLEN OR STRAYED.**"—Attention is called to an advertisement with the above heading.

SEVERAL rats have left this port during the week past. Two lumber rats, that had an extensive area of water front sight, were towed down the lake one fine day.

SCRIMMAGE.—The monotony on our island is occasionally disturbed, during this heated political term, in a good thing in its way, no doubt, especially for those who are fond of such things.

A few days ago an amusing little episode of that nature occurred on Main Street. Two politicians got excessively warmed up discussing the merits of their respective candidates until one of them, in the heat of argument ran his face against his opponent's fist, and floored his antagonist, himself falling on the under side. A delirious son of St. Cris- tian who was seated at his bench in a shop immediately contiguous, rushed frantically forth, with his littleawl, spreading consternation and dismay among the beholders. He was, with much difficulty, induced to refrain from transfixing anyone or eighteen large and stalwart Lincoln men who happened to be spectators of the affray, and was finally conducted peacefully back to his seat. The two combatants were also persuaded in a short time to agree on an armistice, "and that's all we know about the fight."

THUNDER SHOWERS.—A heavy storm of rain fell on Sunday night, accompanied by several large flashes of thunder and violent peals of lightning. Perhaps we have the words mixed up slightly, but no doubt the reader gets our meaning. "Not to put too fine a point on it," it sort of "thundered" and "lightened" two or three times.

COMMENCEMENT OF THE PUBLIC SCHOOLS.

The Public Schools will resume on Monday Sept. 10th.

The following arrangements have been made by the Board of Education of this city, viz.: Grammar school to be taught by Wm. L. Burt, Esq., of Piermont, N. Y.

First Intermediate by Miss Rose Winters of Winona.

Second Intermediate by Miss Mary E. Winters of Winona.

Primary school by Miss Lydia Lowell of Stillwater.

The Eventh regiment having been ordered to Nashville, a number of the boys from this place came over from the Fort Saturday on a short furlough.

They were under orders to report today. It is expected the regiment will leave in about ten days.

With the attention of our readers to the advertisement of Prof. Nichols, who proposes to practice Dental Surgery in our city a portion of the time. He comes highly recommended.

Two belligerent individuals, all the way from the city of Hudson, undertaken yesterday, to settle a political dispute by an appeal to brute force. The scene occurred in front of a place where the articles are dispensed, said of old to be a meek and quiet g. One of the men was extraordinarily heavy on flourishes—describing wonderful circles in the air with a pair of heavy bats—but he entirely failed to make the smallest impression, either upon his antagonist or upon the bystanders. A dazzling shower, which set in at the time, had a soothing and quieting effect upon the nerves of the combatants, and law and order reigned supreme again.

A GLOW IDEA.—The Hudson newspaper, the *Times* and *Star*, have consulted and will henceforth be issued under the name of "Hudson Star and Times." The business will be conducted at the *Times* office by H. A. TAYLOR & Co. The reason given for this change is the greatly increased cost of every thing appertaining to the printing business, as well as the scarcity of printers.

People say they shell peas, when they unshell; that they husk corn, when they shell; that they dust the furniture when they undust it; or take off the dust from it; and that they scale fishes, when they unscale them. I have heard many men say they were going to wash their gardens when I thought their gardens were weedy enough already.

THE GREAT AMERICAN TEA COMPANY, No. 54 Vesey Street, NEW YORK.

HAS CREATED A NEW ERA IN THE HISTORY OF WHOLESALE TEAS IN THIS COUNTRY. They have introduced their new tea and sold them at less than TWO CENTS per pound, short time, never deviating from the one price asked; never deviating from the active price to the many who have heretofore been paying enormous profits, as well as thought they came themselves, being sure to get original packages, true weights and taxes; and the Teas are warranted as represented. Our Fair List is now ready.

\$75 Agents Wanted \$150

To sell Sewing Machines. We will give a commission on all machines sold, or employ agent who will work for the above wages and all expenses paid. Address D. B. HERRING, TON & CO., Detroit, Mich.
